In Memoriam

Thomas Fowler Owen

October 1, 1878 - July 8, 1969

Our thoughts go back to our departed friend and former Town Father, Thomas F. Owen, who served the Town so well as a Selectmen for 33 years, having been first elected in 1902 and last serving in 1958. He had also been a Representative to the General Court of New Hampshire and a member of the School Board.

He was a lifelong resident of the Town and graduated from the Putnam Free School of Newburyport, Mass. in 1896. He was at one time a teacher at the South School, later working in the Shoe Industry and as a Mail Carrier.

His passing was a deep loss to us all and we shall miss his companionship and the knowledge which he had about the history and affairs of the Town he loved so well.

This report does not include the Auditors Reports and the Report of the Municipal Court due to the fact that the state auditors were unable to furnish the Town of Seabrook with their reports in time for this publishing.

A supplemental report will be issued as soon as these reports become available.

FOREST FIRE WARDEN AND DISTRICT CHIEF REPORT

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

FIRE PERMIT

A fire permit is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This included household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be prior to 9:00 a.m. and after 5:00 p.m..

EXCEPTIONS

Commercial or industrial burning is allowed anytime under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or cooking fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia Office or at the Ranger Stations. Permits are not required in public camp or picnic grounds where fireplaces have been built for this purpose.

PENALTIES

1. For kindling a fire without a permit. Maximum of \$200.00 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means wilfully or recklessly that shall endanger woodlands, the maximum fine is \$500.00 or one year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (#1) above.
4. For dropping inflammable material in or near woodland, maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

SEACOAST HOME HEALTH ASSOCIATION

Your visiting Nurse Association has been in operation since July of 1969.

To date, we have made 1157 active calls. We started in with one full time nurse and a part time Supervisor nurse. In August, our office was staffed four days a week, and by December, we found it necessary to hire another part time nurse.

In the fall, we assisted at two Clinics. The measles Clinic was held in October and 63 Hampton children from kindergarten through eighth grades received the vaccine. There were 19 children from North Hampton, 21 in Seabrook, and 9 in Hampton Falls. In December, we held the German Measles Clinic for kindergarten through first grade. 49 North Hampton children received this vaccine, 213 Hampton children, 38 from Seabrook, and 20 from Hampton Falls. There is a great shortage of the German Measles vaccine, so the State designated the age group to receive this. When more is available we plan to continue the immunization program.

The largest number of our patients are in the Medicare age group, though we have made 76 visits to new mothers and their babies. Many of our patients have cardiac problems or are CVA victims. We provide many and varied services such as baths, injections, dressing changes, any nursing ordered by your Doctor, and health instruction for all age groups.

If we can be of help to you or any member of your family, do not hesitate to call us (926-2066).

We are here to be of service to the community.

REPORT OF THE ZONING STUDY COMMITTEE

As a result of the last annual Town Meeting on March 13, 1969, Article #10 was approved by the voters, authorizing the Selectmen to appoint a committee, the function of which was to "study the problems with the previous town zoning ordinance and the zoning needs of the Town in the present and the future, and to report their findings, when completed, to the Town in order that the Town may instruct the Selectmen as to whether or not a new zoning ordinance should be prepared for submission to the Town." This committee, to be known as "The Study Committee for Zoning, was formed about May 1, 1969.

It was decided by this committee to hold publicized public meetings, hoping for a large turnout of interested town voters, so they could share their views, thoughts, likes, and dislikes with us; and guide us in our study. This attempt was unsuccessful, as we never had more than ten people show up at any one of these meetings.

It was then thought that the best way to contact the voters was by a mailed questionnaire. We then sent out a questionnaire to each legal male and female voter in town, a total of 1649 voters. At the end of this report we have included a copy of this questionnaire's results. Of those sent out, 421 (or 25.5%) were returned for evaluation. Of the 421 returned, 25 (6%) were blank; 172 (41%) had comments; 224 (53%) had no comments. Of the 172 with comments: 102 (59%) were for zoning; 58 (34%) were opposed to zoning; and 12 (7%) were indifferent.

A breakdown of our findings is as follows. The answers to question #1 seem to indicate that the majority (69%) thought the ordinance was basically good, but in need of amendments. On 22% called it "no good". 35% of those who answered question #2 formed their opinions by personal experience and 33% by study of the ordinance. Therefore, at least 68% must have been well informed. In the next question, (#3) 196 had read all the ordinance, but 212 understood it. It is difficult to see how there were more who understood it than there were who read it!

On question #4, which dealt with the administration of the ordinance, 56% did not like the way the ordinance was being enforced, and 59% did not like the adjustments granted. This clearly shows a great dissatisfaction with the administration. Although the Board of Selectmen was the sole enforcing body, over half of those answering question #5 believed some other board had that power. This shows a great misunderstanding on this subject. Question #6 shows much dissatisfaction with the administration and poor regu-

lations in fourth place. The Master Plan was not as great a factor as expected.

In conclusion, it seems quite evident that the vote to abolish the zoning ordinance was not wholly caused by dislike of the regulations themselves, but to a great extent by concern about the need of amendments and corrections that were perhaps long overdue, and, by the lack of satisfactory administration by all officials involved. It also seems very possible that had an active program in defense and in support of the ordinance been conducted by the Town officials, the ordinance might not have been voted out.

This committee's prime goal has been to take a "Middle-of the Road" unbiased approach, with an honest analysis of all the opinions received, by taking the most logical methods to get everyone's reaction.

Since the Zoning Ordinance was abolished, the Town has had an increase of approximately 90 single dwellings, including 48 mobile type homes. There have been two 12-family apartment units completed and rented, with two more under construction and another two planned, all on one parcel of land. Approximately one large shopping complex and five new commercial or industrial operations have been constructed, with several more proposed. At least one new subdivision has been opened and another greatly expanded. One trailer park (meaning an area of land rented for trailers) has been opened and another is under construction, with more planned.

There is a proposed development of 120 new lots on the ocean side of the beach, and approximately 60 acres of beautiful undeveloped beach land on the west side. An amusement project has been proposed in this area.

The school board has reported a net increase of approximately 24 new families with 2 to 5 school-aged children per family during the past two years, and the School Building Advisory Committee has decided and recommended that an addition is necessary to control the impending situation.

This all adds up to a considerable rate of increase in both buildings and population, with everything indicating that this growth will continue at probably a faster pace for an unpredictable time.

Furthermore, the proposed \$200 million power plant has already acquired a large area of desirable land and if completed as planned could be a valuable asset to this town.

Several new dwellings have been placed on unfavorable locations and the ability of the land to absorb sewage wastes in some cases is at least very doubtful. The Town

could very easily become involved in a very extensive and costly sewage system, in addition to our current rubbish disposal problem.

We now have at least 6 junk yards within the town limits. Without controls, the situation could become intolerable.

Also, some owners of residential properties are becoming very much concerned about being drawn into commercial areas.

Therefore, in view of these facts, this Committee firmly believes that in order to control the expected growth in a manner that will protect and hopefully improve the favorable conditions and advantages that now exist, and in order to protect the health and welfare of the people as well as maintain a favorable tax rate, some sort of control will be absolutely necessary, and does hereby strongly recommend that the Town of Seabrook, at its' earliest convenience, adopt some sort of protective ordinances, especially in the area of land use control.
